KDC380
1D & 2D Wireless
Barcode Scanner and Data Collector

Designed

A barcode and data collector that is small enough to fit in your pocket and light enough to wear on a lanyard around your neck for a full day without strain. The 1" OLED display and 19-key keypad make interacting with your device easier than ever; no need to decode flashing colored lights to determine if your data was collected - you can view it right on the screen!

Versatile

The KDC380 comes in 1D CCD, 1D Laser, and 2D Imager models, capable of reading all major symbologies. Additionally, 2D models are available in three read ranges: standard (KDC380C), medium (KDC380MR), and extended (KDC380ER), offering businesses flexibility for various scanning distances. With 8MB of on-board memory, it stores over 400,000 barcodes and supports basic applications directly on the device.

Rugged

The KDC380 is IP65 rated and has a 5' drop spec. This means the device is dust tight and water resistant; it's ideal for any environment.

Powered

KDC380 Charging Cradles offer reliable charging options for your scanners. Choose between a 1-slot charging cradle for individual scanner charging or a 4-slot charging cradle to charge multiple scanners simultaneously. Simply dock your KDC380 into the Charging Cradle, ensuring a snug fit with the bumper, and the pogo pins will efficiently charge your scanners. These cradles reduce clutter and help protect the device's USB port from potential damage.

Connected

The KDC380 features Bluetooth Low Energy 5.0 to enable faster and simpler connection methods for use with smart devices. Additional options include Wi-Fi connectivity and NFC for data transfer.

Keyboard wedging and configuration features are included in the complementary SDK for Android, iOS, macOS, Windows, Xamarin, Cordova, React Native, Flutter, and Web. Additionally, receive technical support from top engineers and the development team to ensure ease of data collection in any situation.
