mPOS Companion
for KDC480 SmartSled®

Secure

The PCI-compliant and EMV-certified mPOS Companion ensures secure, reliable transactions and can function independently or as an added feature following barcode scanning.

Designed

Leveraging the modular design of the KDC SmartSled platform, the mPOS Companion securely attaches to the back of the SmartSled with screws. Its lightweight construction seamlessly integrates with the SmartSled, preserving its compact form without adding unnecessary bulk.

Versatile

Accept a variety of card types: chip-and-PIN and IC cards are inserted on the right side of the device, contactless cards are tapped on the front, and magnetic stripe cards are swiped along the bottom. Seamlessly switch between barcode scanning and card processing, all from the same device. The mPOS Companion is fully compatible with KDC480 SmartSled charging solutions, eliminating the need for separate dedicated charging stations for your mPOS-equipped SmartSled scanners.
