mPOS Companion
for SKX6Pro SmartSled®

Accept Payment Cards
with Your SmartSled

The mPOS Companion for the SKX SmartSled family is a PCI-compliant and EMV-certified payment reader designed for reading chip-and-PIN, contactless, magnetic stripe, and IC cards. This versatile device integrates seamlessly with the SKX SmartSled, allowing for secure payment card acceptance as part of your current operations.

Available for SKX6Pro, SKX5, and SKX6Pro.

mPOS Companion
for SKX6Pro SmartSled®

KOAMTAC

Secure

The PCI-compliant and EMV-certified mPOS Companion ensures secure, reliable transactions and can function independently or as an added feature following barcode scanning.

Designed

Utilizing the modular design of the SKX SmartSled platform, the mPOS Companion attaches securely to the back with screws. Its lightweight build integrates effortlessly with the SmartSled, maintaining its compact size without adding extra bulk.

Versatile

Accept a variety of card types: chip-and-PIN and IC cards are inserted on the right side of the device, contactless cards are tapped on the front, and magnetic stripe cards are swiped along the bottom. Effortlessly transition between barcode scanning and card processing, all using a single device. The mPOS Companion is fully compatible with SKX6Pro SmartSled charging solutions, removing the necessity for separate charging stations for your mPOS-enabled SmartSled scanners.
