Samsung Universal Adaptor
for XCover6 Pro and XCover7 Smartcase (SUA)

Snap-On Scanner Adapter for Smartcase

The Samsung Universal Adapter (SUA) easily transforms your Galaxy XCover6 Pro or XCover7 with Smartcase into a data capture powerhouse by enabling quick attachment of the KDC480 or KDC485 SmartSled scanner.

Samsung Universal Adaptor
for XCover6 Pro and XCover7 Smartcase (SUA)

Effortless Integration

The Samsung Universal Adapter (SUA) is the perfect bridge between the Samsung Smartcase and the KDC480/485 SmartSled scanner. The Smartcase for Galaxy XCover6 Pro and XCover7 features an integrated mounting bracket, allowing seamless attachment of accessories like the SUA. The SUA connects securely to the Smartcase via this bracket and serves as a quick and reliable adapter for attaching the KDC480 or KDC485 SmartSled via a screw assembly.

Once attached, a KDC480/485SmartSled enables advanced barcode scanning and unlocks access to its expansive companion ecosystem, including accessories like pistol grips, extended batteries, short- and long-range UHF RFID readers, and mPOS solutions. Combined, these products deliver a streamlined, versatile solution for any data capture needs.

Charging Cradle Ready

Charging Cradles offer 15W fast charging and are available in 1-slot and 5-slot configurations. Devices charge securely via pogo pins, reducing wear on ports, and the versatile spacer system allows for easy updates to new host devices without replacing the entire cradle, minimizing electronic and plastic waste. Cradles simultaneously charge the replaceable and rechargeable 1,100mAh battery inside the KDC480/485 as well also the attached smart device.
